

# TEST CONFIRMATION

## on Hydrogen Suitability

100 Vol.-% in Natural Gas

The DVGW Test Laboratory Energy of DBI - Gastechnologisches Institut gGmbH  
Freiberg confirms the successful testing of

Electro Fusion Gas and water tapping valves  
with service shut-off for PE-HD pipes;  
Type FRIALEN Druckanbohrventil („DAV“);  
d110/63 tested

according to the test basis

DBI-GTI 105

Tests according „H2ready“ for tapping fittings/valves.

The results of the test are documented in the following test reports.

B 20/07/3250 | 17.07.2020

On the basis of this test mark confirmation, the manufacturer

Aliaxis Deutschland GmbH

(Steinzeugstraße 50, D-68229 Mannheim | Germany)

is authorised to apply the quality mark H2ready for the above mentioned products in accordance with the  
statutes. The test confirmation is valid until 16.07.2023.

  
Dipl.-Ing. Ronald Aßmann  
Head of test laboratory

Freiberg, 14.09.2020

DBI - Gastechnologisches Institut gGmbH Freiberg | DVGW-Prüflaboratorium Energie  
Halsbrücker Straße 34 | D-09599 Freiberg, Germany | pruefstelle@dbi-gruppe.de

This test confirmation is the English language version. In case of doubt the wording according to the German language version of the test confirmation is valid.

This test confirmation attests to the compliance of the products mentioned with the technical requirements in the test specifications mentioned above. It does not confirm standard conformity of the tested products. The H2ready warranty mark is only valid in conjunction with the above-mentioned test report(s). If conditions are specified in the test reports associated with the warranty mark, the right to use the warranty mark does not commence until they have been implemented.
